Contents

Preface	<i>page</i>	<i>ix</i>
1	Introduction to Propositional Logic	1
1.1	Syntax and Semantics of Propositional Logic	2
1.2	Basic Results	9
1.3	Exercises	13
2	Data Structures and Normal Forms	15
2.1	General Data Structures for Propositional Formulas	16
2.2	Negation Normal Form (NNF)	21
2.3	Conjunctive Normal Form	24
2.3.1	Data Structures for Conjunctive Normal Form	36
2.4	Further Normal Forms	42
2.4.1	Disjunctive Normal Form	42
2.4.2	Binary Decision Diagrams	43
2.5	Exercises	47
3	Satisfiability	49
3.1	Complexity of the Satisfiability Problem	50
3.2	A Collection of Problems in Propositional Logic	56
3.3	Satisfiability and 2-CNF	74
3.4	The Davis–Putnam Algorithm	85
3.5	Complexity Analysis of Davis–Putnam Algorithms	95
3.6	Relaxation Algorithm	105
3.7	Independent Sets	111
3.8	Connection Methods	115
3.9	Partial Satisfiability Algorithms	120
3.10	Distribution of Satisfiable Formulas	123
3.11	Exercises	125

4	Resolution	128
4.1	Foundations of Resolution	129
4.2	Length of Resolution Proofs	140
4.3	Resolution Strategies	142
4.3.1	Level Saturation Strategy	143
4.3.2	Set of Support Strategy and Semantic Resolution	147
4.3.3	P- and N-Resolution	150
4.3.4	Hyperresolution	153
4.3.5	Linear Resolution	158
4.3.6	Resolution with Ordered Clauses	165
4.3.7	Lock Resolution	169
4.3.8	Regular Resolution	173
4.3.9	Davis-Putnam Resolution	175
4.3.10	Input Resolution	177
4.3.11	Unit Resolution	183
4.3.12	Unit Preference Strategy	188
4.3.13	Space Bounded Resolution	193
4.3.14	Extended Resolution	196
4.4	Clause Oriented Resolution	200
4.5	Exercises	201
5	Horn Logic	203
5.1	Foundations	204
5.2	Renaming	207
5.3	Unit Resolution	217
5.4	Unique Satisfiability for Horn Formulas	228
5.5	Reduction of Horn Formulas	240
5.6	Equivalence Problems	246
5.7	SLD-Resolution	260
5.7.1	A Linear Time Algorithm for the Prolog Function	267
5.7.2	Loops and Equivalence in Prolog	274
5.8	Extensions of Horn Logic	279
5.9	Exercises	291
6	Calculi	293
6.1	Frege Systems	294
6.2	Cutting Planes	303
6.3	Tableau Calculi	311
6.4	The Sequent Calculus	320
6.4.1	Gentzen's Sequent Calculus	320
6.4.2	A Modified Sequent Calculus	327

6.4.3	Derivation of Tableau Calculi	329
6.5	Comparison of Proof Systems for Propositional Logic	331
6.6	Exercises	338
7	Quantified Formulas	339
7.1	Introduction	339
7.2	Normal Forms	351
7.3	Q-Resolution	359
7.4	Q-Unit Resolution	364
7.5	Quantified Horn Formulas	371
7.5.1	Satisfiability Problem for QHORN	371
7.5.2	Consequence and Equivalence	374
7.6	Quantified 2-CNF-Formulas	375
7.7	Exercises	384
	Bibliography	385
	List of Symbols	403
	List of Algorithms	405
	Index	406
